

Construction Update
Middlesex – US 2 Bridge Replacement
IM 089-2(41)

Project Location: Bridge 55 is located on US 2 in Middlesex approximately 1.9 miles east of the intersection of US 2/VT 100B and spans over Interstate 89 and the New England Central Railroad (NECR) line. This is a multi-year project with construction starting in 2016 and completion scheduled for 2018.

Week of August 29th, 2016

Two culverts will be installed on US 2 just east of the bridge (Montpelier Side) throughout the week.

Excavating and installing fill for the footing that will support the large retaining wall for Abutment 1 will continue this week.

Trucks will be entering and exiting on both the east and west sides of the existing bridge all week.

US 2 will be reduced to one lane throughout the entire project with alternating one-way traffic maintained. Flaggers will be present to assist with maintaining traffic flow.

Traffic – Minor traffic delays can be expected this week.

It is illegal in VT to use any handheld portable electronic devices while driving. The law carries fines of up to \$200 with points assessed if the violation occurs in a work zone.
