

Construction Update
Middlesex – US 2 Bridge Replacement
IM 089-2(41)

Project Location: Bridge 55 is located on US 2 in Middlesex approximately 1.9 miles east of the intersection of US 2/VT 100B and spans over Interstate 89 and the New England Central Railroad (NECR) line. This is a multi-year project with construction starting in 2016 and completion scheduled for 2018.

Labor Day Holiday Weekend – No work will be performed on the project throughout the holiday weekend, including Monday, September 5th, 2016. Work on the project will resume on Tuesday, September 6th, 2016.

Week of September 5th, 2016

Crews will be widening US 2 on the east end (Montpelier) of the bridge in preparation for a traffic shift next year. In 2017, traffic will be shifted to one side of this widened section while crews construct the new bridge.

US 2 will be reduced to one lane throughout the entire project with alternating one-way traffic maintained. Flaggers will be present to assist with maintaining traffic flow.

Traffic – Minor traffic delays can be expected this week.

It is illegal in VT to use any handheld portable electronic devices while driving. The law carries fines of up to \$200 with points assessed if the violation occurs in a work zone.

Contact Francine Perkins, Project Outreach Coordinator, FRP Enterprises, LLC with any questions or concerns with regards to the project at 802-479-6994. Construction updates and project photos are posted at <http://www.us2middlesex.vtransprojects.vermont.gov/>.
