

Construction Update
Middlesex – US 2 Bridge Replacement
IM 089-2(41)

Project Location: Bridge 55 is located on US 2 in Middlesex approximately 1.9 miles east of the intersection of US 2/VT 100B and spans over Interstate 89 and the New England Central Railroad (NECR) line. This is a multi-year project with construction starting in 2016 and completion scheduled for 2018.

Week of October 3, 2016

Crews will be forming and pouring concrete for the footing that will support the abutment 1 retaining wall. Although the location of the footing is off of US 2, traffic will be reduced to one lane with alternating one-way traffic over the bridge so trucks can access the site. Flaggers will be present to assist with maintaining traffic flow.

Traffic – Minor traffic delays are expected this week.

It is illegal in VT to use any handheld portable electronic devices while driving. The law carries fines of up to \$200 with points assessed if the violation occurs in a work zone.

Contact Francine Perkins, Project Outreach Coordinator, FRP Enterprises, LLC with any questions or concerns with regards to the project at 802-479-6994. Construction updates and project photos are posted at <http://www.us2middlesex.vtransprojects.vermont.gov/> .
